

Accessibility Statement

This website is run by Tiverton Town Council. We want as many people as possible to be able to use this website.

Tiverton Town Council endeavours to make this website as accessible as possible to everyone, including those with disabilities and those who use assistive technologies to browse the web. Some of the ways in which we strive to achieve this are as follows:

Changing colours, font, text size and other settings

All modern browsers allow you to change colours and font sizes. We've tried to create a site which doesn't get in the way when you change these settings. You should be able to amend your browser settings to assist.

Screen readers

A screen reader is a program which reads out the information displayed on your computer to you. Screen Readers can be useful to enable blind and partially sighted people to browse the internet and carry out other tasks using their computer. We have attempted to use standard HTML formatting on our website using text which can be read in most cases via a screen reader.

Other Devices

This website can also be accessed and navigated from non-desktop PC devices such as mobile, tablet devices.

How accessible this website is

We know some parts of this website aren't fully accessible:

- Older PDF documents aren't fully accessible to screen reader software
- Older online forms are difficult to navigate using just a keyboard
- Information is presented as Images and not accessible using a screen reader

What to do if you can't access parts of this website

If you need information on this website in a different format, please contact us using the details below and we will do our best to accommodate your request.
